## BRIEF CRITERIA ANALYSIS

Foster will be co-locating with Schenck in grades PK-02 for 2024-25 while construction is completed at the Schenck campus. Once renovations are complete, Foster will be deactivated and send 274 students to Schenck as soon as 2025-26. As a result, it is projected that in 2025, there will be 792 students at Schenck.

## BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school's principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With Schenck receiving students from Foster, more students and families will gain access to:

- On-campus ESCE self-contained instruction;
- Full-time music and art teachers in addition to part-time music and art teachers; and
- An additional Communities in Schools (CIS) site coordinator.
